- PhpMyAdmin
- Using WCAG (Accessibility standards) while developing

Professional Summary

I'm a 28 years old, Polish front-end developer, living in Edinburgh, Scotland. I'm very passionate about web technologies, with more than 10 years of experience in the field. I started as a more full-stack developer but recently decided to shift my focus to front-end technologies as it better suits my creative side. For more details about me please visit my digital resume page at - kevinfalencik.netlify.com
